

# The Prodigy Proposal

A look at Prodigy's secure and affordable school management solution, designed to grow your school and group of schools.

**Nursery | Montessori | Primary | Secondary**

# About Prodigy

Established and registered in 2013, Prodigy is a Lagos-based Pan African initiative set to provide and support schools with cost-effective solutions to foster administrative and decision-making endeavours.

Managed and run by young goal-oriented and tech-savvy entrepreneurs who saw the need for support solutions and understand the advantage in cost effective automated schools processes.

Our web-based management software automates your schools processes, gives you comprehensive and insightful data so you can reach better and quick decisions.

The goal is to help schools in the day-to-day activities, boost productivity among staff, improve students and parents engagements, thus, cohesively generate effective and efficient school administration across board.

## Mission

To provide unmatched professional service and solutions with consistent outcomes exceeding clients' expectations.

## Vision

To be the first choice and one stop solution for school needs.

## Core Values

Professionalism  
Reliability  
Open-Mindedness  
Diligence  
Integrity  
Goal Oriented  
Younique

We have identified a number of administrative challenges faced by schools. They are as follows:

01

Cumbersome paperwork and manual processes that could result to a high stress level on staff and students.

02

Poor performance analysis and progress analysis of students due to incomplete data for effective assessment.

03

Difficulty in maintaining and managing records of attendance, fees, admissions, transport, et cetera, and obtaining key information when needed.

04

Ineffective evaluation and progress assessment of school staff.

05

Ineffective communication management from school to parents, and between staff and students, which can lead to dissemination of unverified information.

06

Not being able to manage admission and enrolment processes effectively.

07

Incomplete student and staff information.

08

Poor financial management, difficulty in tracking fee collection, income, expenses and contributions.

09

Inefficient student records management which results to delayed transcripts, broadsheets and report cards.

10

Delays in getting mid-term and end of term reports ready.

## Common Challenges

# Our Uniqueness

There are many reasons others choose us, our uniqueness is one. We have resolved all the data and workflow fragmentation challenges that arise from using Google classroom, Zoom, Edmodo and the likes.

## ONLINE EXAMINATION

You can conduct all forms of examination from CA, end of term exams, entrance exams and even staff recruitment tests.

## ONLINE EXAM INVIGILATION

With Prodigy you are able to invigilate all forms of exams taken online.

## ADAPTABLE

Our solution works for pre-schools, primary, secondary schools and special needs schools.

## FLEXIBLE GRADING SYSTEM

Our solution allows you to have different grading system for different assessment in a term or session. We offer British, American, Montessori and Rubric .

## VIDEO CONFERENCING

You are able to have Live classes, PTA meeting, staff and executive meetings with no participant limit.

Attendance**

# Why Use Prodigy?

Let's tell you why many educators use our solution.

## **DIGITIZE ALL OLD RECORDS**

Prodigy provides you with the option to digitize your old records. Be it a record of over 25 years, prodigy can handle it.

## **ALL RESULTS READY IN 45 MINUTES**

The entire school result is ready in 45minutes irrespective of the number of students in the school, at the click of a button.

## **FRAUD TRACKING**

Prodigy tracks every income and expenses, ensuring that school fees paid to bank must be recorded for access to result by the parents, thereby making it mandatory for the reconciliation of fees recorded and amount in the bank.

## **PARENTAL INVOLVEMENT**

From the comfort of their home/ office, parents can now check their child's result, and monitor their performance through their mobile phone and also do performance analysis while comparing different term's result at a glance.

## **COMMUNICATION & COLLABORATION**

Schools can communicate with parents, students and staff via prodigy Internal Message System, or Via Prodigy intelligent SMS module which provides you with different SMS sending options and a unique feature to schedule your message to be sent at a particular time.

# Why Use Prodigy?

- ✓ Scalable and flexible
- ✓ Works on all devices
- ✓ Responsive customer support

## ATTENDANCE MANAGEMENT

Prodigy helps you take and track staff and student attendance. Depending on your choice either by CARD or using your device to take attendance.

## INFORMATION SYSTEM

Prodigy provides you with an information system to meet the need of your school. You can manage parent, student and staff information. This data is available to you anytime, any where. It can be updated as it changes.

## RECORDS AND RESULTS

With Prodigy, your school records and students results are digitized and you can access it anywhere, anytime from your device. You can print students transcript, mid/end of term report, class broadsheet, subject mark sheet etc.

## CURRICULUM

Prodigy provides you with a platform to manage scheme of works, lesson plan and notes. Also a resource bank to manage additional learning materials.

## FINANCE

Prodigy provides you with tools that remove the risk and anxiety associated with dealing with cash, fraud loopholes, manually searching a list of defaulters, and reconciling payments. Make it easy for parents to pay for things like tuition, meals, and field excursions.

# Why Choose Prodigy?

## AFTER SALES SUPPORT

Our deal with your school does not end after you have purchased our software license. To us, we are in partnership with you towards achieving your goals. We offer an amazing support. To that effect our support lines are available 24/7. Call on us, we are always ready to help out.

## SOFTWARE UPDATES

The rate of development of ICT is taking place with considerable speed. With the introduction of new devices and technologies, new user requirements always emerge and existing ones keep changing. We are constantly innovating and evolving, and our software is constantly being updated and upgraded to meet up with the trends in new technology.

## FLEXIBILITY

The school system & processes constantly changes. Better methods and standards are always adopted in order to improve the system. Having this in mind, we are open to feedbacks from you and your request on additional functionality, features, modules to meet your needs.

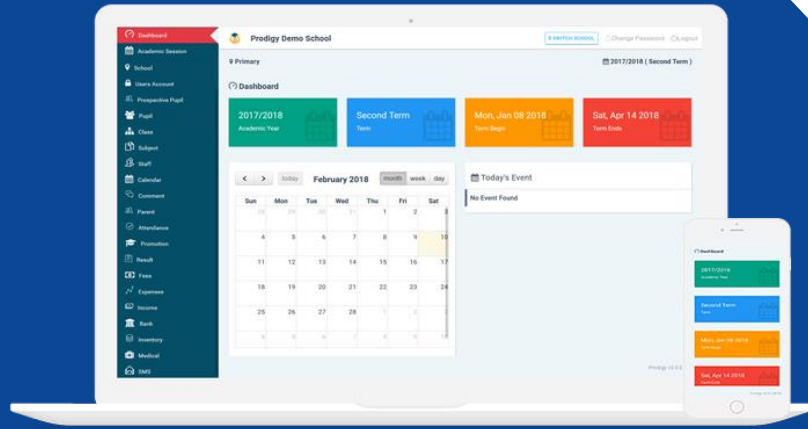

## GROWTH

The goal of every organization is to grow. As your school grows, your records keep growing too. Also the number of staff, parent, students and the overall data of your school keeps growing too. Prodigy is designed with scalability in mind. As you grow we grow with you. Be it 200 or 200,000 students and staff, Prodigy would handle your data fine.

**Employ a working system designed to keep your school at its best.**

Managing a school and bringing together different sections to achieve the mission is always a big challenge for school management. To succeed in everyday tasks of schools, there is an emerging demand to modernize education with cloud, mobile and digital technologies to improve operational efficiency and manage the institution effectively.

By automating the academic and administrative processes of your school, Prodigy will make it easy to achieve your goals.
